JIN YANG PARK

Frontend Developer

Once upon a time I dealt with fashion designer, now I code!
I am a frontend developer who loves to build fast, accessible,
responsive web applications using the latest technologies. I appreciate beautiful things –
from seeking out mind blowing landscapes on my travels to a stunningly simple,
well designed web page with smart UI/UX.

EXPERIENCE

PRIMAL WEAR
Sportswear Designer and Product Manager
📅 Dec 2019 - Dec 2021 📍 Seoul, South Korea
